NEWS RELEASE

July 1, 2022

Emergency siren in Park Ridge de-activated pending repairs

A malfunctioning weather/emergency siren located at the Park Ridge Village Hall has been temporarily de-activated until it can be repaired to work properly with the Portage County Emergency Dispatch Center and coordinated emergency alert systems. The work has been delayed due to supply chain issues for the parts needed to install the necessary updates and repairs.

Village and nearby residents are strongly encouraged to observe other local warning systems in place, including nearby sirens, local television and radio broadcasts, and other emergency alert systems. Citizens are also urged to sign up for the Portage County Community Alert System that sends notifications to your home phone, mobile phone, and emails. To sign up for this free service, visit the following link, or call 715-346-1400:
